📁 PROJECTS

An E-commerce website using MERN stack

Developed an e-commerce platform utilizing the MERN stack. The website specializes in selling kitchen utensils and includes an admin panel for managing products, orders, and users. Integrated payment gateway Razorpay for secure transactions.

Insta GIF Name Finder using MERN (Click here) [🔗](#)

Built a MEAN stack application with Tailwind CSS to assist users in discovering GIF names based on meme references and mood, prioritizing simplicity and efficiency.

Responsive Ice Cream Website using React and Tailwind CSS (Click here) [🔗](#)

Crafted a sleek, responsive ice cream website using React for dynamic functionality and Tailwind CSS for stylish design.

Turn the page - AI story generator using React and Node (Click here) [🔗](#)

Crafted an AI Story Generator application by integrating Gemini AI with React and Node.js. Users input brief prompts, and the application generates captivating stories. The system seamlessly connects with Gemini AI to produce engaging narratives from minimal user input, providing an immersive storytelling experience.

Hand cricket game using Angular (Click here) [🔗](#)

Developed a captivating hand cricket game with Angular, offering users the chance to play against the computer using the same logic and rules as the real-life hand cricket game.

👤 WORKSHOPS ORGANIZED

Conducted a workshop on the YOLO algorithm on behalf of CSI and ISTE.

Conducted hands-on training for my juniors on the topics of logical thinking and problem-solving using Java.

🧩 PERSONAL SKILLS
